

We're always looking for talent like you!

Join our team! Transport planners

KDL never stands still, and it likes to welcome fresh talent to the team. We're always looking for transport planners who know how to get a job done.

Getting down to brass tacks, you...

- ...draw up a detailed planning for the next day.
- ...are in close contact with all involved parties.
- ...maintain an overview and preserve tranquillity within the team. Relax, you know what you're doing.
- ...carefully plan a 50-truck fleet as optimally as possible.

Are we a match?

- Transport planning is no mystery to you, since you have a minimum of 5 years of experience.
- You know the Belgian road network - however complicated it can be at times - like the back of your hand.
- Stress and time pressures don't throw you off your game - on the contrary!
- You firmly believe that a good planner is an excellent people manager.
- No lack of communication skills.
- You know how to get a job done, while remaining flexible at the same time.
